

## LATER FROM EUROPE.

Arrival of the Steamer Arabia.

### MORE MUTINIES IN INDIA.

New York, Oct. 8.

The Cunard steamer Arabia, Capt. Stone, from Liverpool on the 19th, arrived at her dock at 3.30 this morning, too late to forward her mails East by the early train.

### The Rebellion in India.

The European news is confined mainly to vague speculations upon the result of the approaching Imperial Conference at Stuttgart. Delhi had not fallen up to the 24th of July. The besieging army was attacked by the mutineers on the 14th, 18th and 23d of July, and suffered a loss of over 500 men in the several encounters, but the assailants were repulsed on each occasion with great slaughter. Among the severely wounded was Adjutant General Chamberlain.

Gen. Reid, owing to ill health, had relinquished the command before Delhi, and it was held by Gen. Wilson.

Further details of the massacre at Cawnpore show that among the victims murdered were 80 officers, 190 privates, 190 women and children, all belonging to the army, and about 400 civilians.

The women were stripped naked, beheaded, and thrown into a well, and their children were hurled down alive upon the mangled bodies.

Fears were entertained of outbreaks at other stations in the Bombay Presidency, and European reinforcements were thrown into the suspected localities to overawe the disaffected.

A Mohammedan conspiracy had likewise been discovered in the Bombay Presidency. Much excitement existed at Benares towns which city, the mutineers were advancing.

Lord Elgin arrived at Calcutta on the 5th of August.

### Great Britain.

The Rev. Mr. Hay, the American Missionary in India, who escaped from Allahabad, and who sailed for New York in the Argo, had furnished the English Government with a very interesting account of the rise of the mutiny.

A panic had prevailed. On the French Bourse all securities fell, but especially those of the Credit Mobilier.

A general improvement in the trade of Paris is reported; likewise further progress in the fall of the price of corn.

## LATER FROM CALIFORNIA.

New York, Oct. 4.

The Steamer Star of the West, from Aspinwall 24th ult., arrived at this port at 6 o'clock this morning, with 453 passengers and \$1,268,734 in specie.

Principal consignees—American Exchange Bank \$245,000; Wells, Fargo & Co. \$239,000; Robt. Hallett & Co. \$120,000; Jas. Patrick, \$107,000; Howland & Aspinwall, \$76,000; Duncan, Sherman & Co. \$89,000; Freeman & Co. \$41,000; Hawes & Crowell, \$40,000; W. T. Coleman & Co. \$30,000.

The Star of the West connected with the California, which was eighteen days making the trip to Panama. She touched at Panama on the evening of the 25th, and at Key West the morning of the 29th.

Among her passengers are Senator Gwin, Governor Poole, Hon. C. L. Scott of California and Colonel Starkweather, late U. S. Minister to Chili.

The U. S. frigate Washburn, and British ships Brunswick and Tartar, were at Aspinwall, and the U. S. ships John Adams and Decatur at Panama.

The news from California is interesting. The state election came off on the 21st of September, resulted in the election of John B. Weller, and the whole Democratic ticket. The vote was: Weller, 40,000; Stanley, 27,000; Bowie, (American), 27,000. In San Francisco, the People's ticket which sympathized with the Vigilance Committee, beat the Democrats 1800 votes.

The election passed off quietly. The steamship Sonora, which connected with the last steamer Central America, is reported to have had a small number of passengers, including several prominent citizens from San Francisco; 132 mail bags, containing besides newspapers, 38,000 letters and \$1,859,497 in treasure.

The town of Columbia, Tuolumne County, was almost entirely destroyed by fire on the 25th of August. Only 12 buildings escaped. Loss \$8,000.

A fearful explosion of gunpowder occurred in the store of H. A. Brown, instantly killing five men, and injuring several others. The burnt district was being rapidly rebuilt.

Mining is carried on vigorously and successfully. A fire at March Bar Sacramento Co., on the 25th August, destroyed \$25,000 worth of property.

A terrible riot occurred between a gang of rowdies and the citizens of Carson Valley; several persons were injured. The citizens formed a Vigilance Committee, with the determination of expatriating the whole gang.

California has decided to pay her State debt by a large majority.

The Constitutional Convention project has probably been defeated.

William Mint had been convicted of robbing the Mint. The Grand Jury is investigating the affairs of the Mint, which seem to be in a bad state. The defalcation of Harshy, the late melter and refiner, to the amount of \$152,000 and the detection of Ben, have led to the belief that all is not as it should be, and there is a general demand for a thorough reorganization of all its affairs.

The San Francisco markets were quiet under heavy importations.

From India.—The India mail was not received in England in season for the steamer Arabia, but will be brought by the Fulton, which was to leave Southampton, Sept. 23, for New York.

Bombay, Aug. 15.—We are sorry to say that the mutiny still continues and serious apprehensions are entertained of famine, owing to the sad neglect of agriculture during this most favorable season of the year.

The Governor General evinces a great anxiety in the General Order directing all officers sent to the rebels, to collect all the grain and provisions they may find at different places, and to make them over to the proper authorities to store.

The extent of this mutiny cannot fail to have the most injurious effect on the Bengal trade next season.

In a consequence of the government inviting tenders for several ships to proceed to Cape Good Hope to convey cavalry horses, freight is expected to advance. We quote London \$2 5s to \$2 10s; Liverpool \$2 4s to \$2 10s.

OLD AGE. It is not well that a man should always labor. His temporal as well as spiritual interest demand a cessation in the decline of life. Some years of quiet reflection are necessary after a life of industry and activity. There is more to be gained in life than in incessant occupation, and its product—wealth. He who has been a drudge all his days to one man, or an anxious pursuit can hardly be fit for another world. The release from toil in old age must have its compensations, and, in the reality it is pleasing, as it is useful and salutary to the mind. Such advantages, however, can only be gained by produce and economy in youth; we must earn, like the ant, before we can hope to have any rest in the winter of our days.

A coquette is a rose-bush, from which each young beau plucks a leaf, and the thorns are left for the husband.

## The Rockland Gazette.

Thursday Evening, Oct. 8, 1867.

### Theodore Parker on the Financial Crisis.

The present wide-spread monetary panic and the consequent disastrous pressure in business operations, threatening to overwhelm the country with commercial disaster, is the absorbing topic of interest discussed in all the daily journals of our principal cities, and their columns are filled with the records of suspensions and failures, with telegraph dispatches and extracts from contemporary prints giving information with relation to the aspect of financial affairs in the different sections of the country, and with their own opinions and recommendations as to the cause of the present distress and the remedy needed to restore the business heart of the country to a healthy pulsation. The failure of the Ohio Life Insurance and Trust Company was the initiatory of a long series of disasters, and the panic has been spreading since that event to nearly every part of the country. With regard to the course to be pursued by the Banks and mercantile community in the present crisis, we do not propose to offer now any suggestions, but it is evident that one great cause of the present position of affairs has been speculation and over-trading. Men have done business too fast, and at too great extent. The necessity of retrenchment and of greater prudence in future, is a lesson which cannot fail to be taught by the aspect of the present day. To keep within the bounds of perfectly safe and legitimate business operations is, at all times, the best safeguard of the mercantile community.

The present financial crisis has of late formed the theme of discourse in many of our pulpits, and we notice that among others, Rev. Mr. Stone of Boston and Rev. Mr. Moore of Portland, have delivered eloquent and impressive discourses on this topic. Rev. Theo. Parker preached at the Boston Music Hall on last Sunday forenoon, from the words "In the day of adversity consider." (Ecc. 7: 14) and we commenced this article with the intention of giving an extract from the *Journal's* report of this discourse, which we subjoin without further remark:

In the first place, then, the great haste which men have in the country to be rich is one great evil. Money is the only patent of nobility in our country, and everybody rushes for it. The farmer leaves his land, and the scholar makes his ledger his familiar book. By this rash pursuit of wealth, our noble means are nearly doubled every year or two. We build railroads and factories with perhaps too great facility. Australia and California have sent out four hundred millions of gold, and the result of all this is, perhaps, not fully understood. The great cities of the world are crowded with millions of people, and the result is, that the price of labor and produce to about five times their original value; and so equally has the recent accession of the precious metal raised labor in our time, as nobody knows how much more it is than it was. It is expected to rise, and speculation in all things is rampant.

All these speculations are evidences of commercial enterprise, but have induced evils which with others they have raised a panic. And now for this calamity what are the reasons? The first is, that men are too greedy. He trains up his daughters to do nothing, and their heads are as empty as the blocks on which their bonnets are shaped. These girls doing nothing themselves, have even servants employed on such and such a scale of extravagance. The result is, that the extravagance of woman's dress is the present day. Ruinous to the means of those who supported them, but yet not their fault, for woman, if man wanted her, would dress in a sickly, to-morrow. They dress for the gaze of the crowd in part, but much more to please the men.

Our idleness is another great evil. In the town of Somerville live Mr. Manly's, with a family of grown-up daughters; once he was poor, but now he is rich. He trains up his daughters to do nothing, and their heads are as empty as the blocks on which their bonnets are shaped. These girls doing nothing themselves, have even servants employed on such and such a scale of extravagance. The result is, that the extravagance of woman's dress is the present day. Ruinous to the means of those who supported them, but yet not their fault, for woman, if man wanted her, would dress in a sickly, to-morrow. They dress for the gaze of the crowd in part, but much more to please the men.

They dress for the gaze of the crowd in part, but much more to please the men.

Our idleness is another great evil. In the town of Somerville live Mr. Manly's, with a family of grown-up daughters; once he was poor, but now he is rich. He trains up his daughters to do nothing, and their heads are as empty as the blocks on which their bonnets are shaped. These girls doing nothing themselves, have even servants employed on such and such a scale of extravagance. The result is, that the extravagance of woman's dress is the present day. Ruinous to the means of those who supported them, but yet not their fault, for woman, if man wanted her, would dress in a sickly, to-morrow. They dress for the gaze of the crowd in part, but much more to please the men.

### A New Aid to Clerical Morality.

In the last weekly N. Y. Tribune we find, under the head of "a suggestion approved" a letter from "a member of an evangelical church" commending an article which appeared in a previous number of the Tribune, suggesting a rule "for the government of the clergy in their intercourse with their female parishioners." After expressing his thanks to the editor of the Tribune for the article in question, and asserting that the Tribune's "rule" is "the only one which will effectually prevent scandal from attaching to, and temptation from assailing good men, and, at the same time, protect women from the designs of bad ones," the "member of an evangelical church" writes as follows:

"There can be no good reason for withholding or concealing the fact that the ministerial profession, as at present exercised, is beset with stronger temptations in a particular direction than any other calling whatever, and knowing this, the clergy owe it to themselves, their calling, and those
